

Press release

21.01.2022

Acquisition of Tecalemit Oy and A-Test & Consulting Oy

Tecalemit Oy and Suvia Holding Oy have made a corporate acquisition and Tecalemit Oy buys A-Test & Consulting Oy. With the acquisition of 01.02.2022, the properties of two reputable companies combined, we will be able to offer a wider range of services and support. Tecalemit Oy's extensive service offering, combined with A-Test & Consulting's versatile aftersales expertise, creates a company like no other in the industry.

Under one roof, we get workshop design site services, extensive brand expertise and supply, versatile and nationwide maintenance (contract) services, customized investment proposals, technical support and spare parts for different brands, fast response times and local transactions, electronic channels, quality auditing services for car importers.

The acquisition will bring locality to our customers with the help of nearly 70 professionals. We want to be where our customers are and the new organization enables us to develop our operations to a whole new level.

Company will be part of the international Stenhøj Group, a leading supplier of products and services to the automotive aftermarket. With more than a hundred years of experience, Stenhøj Group manufactures and offers high-quality professional products. The company has 12 subsidiaries and 600 employees worldwide and is part of the Nexion Group.

Headquartered in Correggio, Italy, Nexion Group is the market leader in workshop equipment, designing, developing and manufacturing tire service equipment, hoists, ADAS calibration systems, diagnostics and other automotive solutions for the global automotive aftermarket.

Nexion Group has

- 17 internationally renowned brands, e.g. Corghi, AutopStenhøj, Mondolfo Ferro, Sherpa
- 12 own production facilities in Italy, Germany, Croatia, Denmark and China
- 19 sales subsidiaries in 14 countries
- 8 product development units in Italy, Germany, Denmark, India and China

Nexion offers a wide and comprehensive range of products designed, manufactured and sold by nearly 2,000 employees. The annual turnover is over 350 million euros.
