

PointX™

Diagnostic Measuring Tool

Speed up the repair process!

The PointX measuring tool gives fast and accurate diagnostic measuring so that you can start, and complete, the repair faster than ever before. The lightweight, accurate and easy to use measuring arm and Vision2 PointX software in combination with Car-O-Data, the world's most comprehensive vehicle database, gives you an affordable diagnostic measuring system.

The **PointX*** measuring tool, made in carbon fiber, is extremely lightweight making it easy for technicians to manoeuvre around the vehicle to be measured. The magnetic attachment allows for one-handed operation.

Not only is **PointX** easy to operate, it is also driven with photo-based Vision2 Software, which guides the entire repair process. With our comprehensive measuring data, Vision2 and **PointX** your technicians will be able to provide high quality collision damage diagnosis for your customers.

Features and Benefits

- **Ergonomic** — lightweight carbon fibre construction
- **Bluetooth communication** — makes it easy to work with Vision2 - PointX software
- **Speed up the measuring process** — with automatic height calculation and default set software
- **Easy to learn** – process orientated software interface
- **User friendly, one-handed operation** — through magnetic adapters
- **Upper body Point-To-Point** measurement capability
- **Electronic documentation** — with report print out
- **Access to Car-O-Data** — measurement data with over 7 000 measured vehicles for PointX
- **Compatible with Car-O-Tronic** electronic measuring system adapters

Vision2 - PointX Software —

Completes the most comprehensive hand-held electronic measuring system on the market.

Car-O-Liner's Vision2 -PointX Software, compatible with the PointX measuring tool, is a photo-based software that helps the technician quickly and accurately find the correct measuring points and performs automatic centering, measuring and documentation.

Vision2 - PointX has an improved, easy-to-learn intuitive workflow presented in a new user-friendly interface

One technician can easily manage the entire diagnosis

featuring state of the art graphics. All these features working together contribute to reduced cycle times and more efficient diagnosis.

Vision2 - PointX Software, is integrated with Car-O-Data, the world's largest vehicle database featuring measurement data for PointX for over 7,000 vehicles. With continuous updates via internet your database will always be up-to-date.

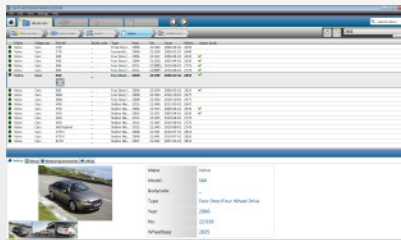

“Save time - make money!”

Measuring with PointX is quick and easy:

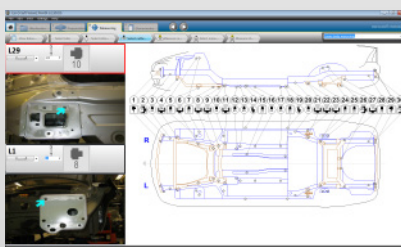

The PointX software is advanced, user-friendly, photo-based and accurate. It is simple to learn and use. Three easy steps is all it takes:

1

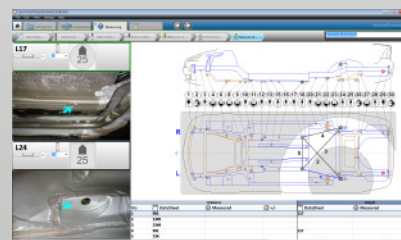

Select the vehicle year and model and download the data sheet from the database

2

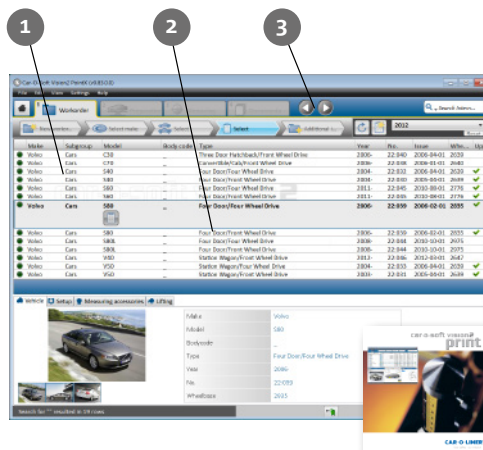

Select the measurement points you wish to measure

3

Measure and repair the vehicle according to the measuring points you have selected. Measure and print out or save the report

To find a datasheet

1. Scroll to required make and subgroup
2. Click the required model
3. Click "Download datasheet"

The World's Largest Vehicle Database

Covering nearly all new and updated vehicles – presently more than 7,000 models for **PointX** and over 15,000 models in total – **Car-O-Data** consistently provides access to current and reliable measurement data. New and updated vehicles are continuously measured by our international measuring team in cooperation with automotive manufacturers around the world.

Decrease cycle times - Increase repair quality and profits

With our comprehensive measuring data you will see an immediate improvement in the level of quality your technicians put into every diagnosis which in turn gives shorter cycle times and raises your workshop's bottom line.

One year free subscription to Car-O-Data included

The PointX measuring system includes a one year free subscription to exclusive access to Car-O-Data, including continuous updates over the internet.

TECHNICAL DATA

Minimum length (with adapter)	300 mm 740 mm
Maximum length (with adapter)	1400 mm 2000 mm
Height (inc. Incinometer)	600 mm
Weight	0.9 kg
Minimum P2P	300
Maximum P2P	2000
Horizontal adapter	Yes
Battery service life	8 hours during typical usage

PointX includes:

- A new generation electronic measuring tool with colour display
- Vision2 PointX Software
- A 1 year's subscription to Car-O-Data
- High quality case
