

# VW APPROVES CTR® 9

VAS 6755A

**Car-O-Liner is happy to announce that the CTR® 9 Resistance Spot Welder has received a global Volkswagen approval.**

“Volkswagen recognizes that the high performance **CTR9** welder meets their requirements for high-quality repairs of their modern, technologically advanced vehicles,” says Jonny Jangdin, product manager at Car-O-Liner.

## What’s so special about the VAS 6755A?

In order to achieve this approval, the Car-O-Liner CTR® 9 welder went through a series of dedicated welding tests performed by an independent third party welding institute to ensure the welder met the high quality welding requirements set by Volkswagen. On top of that it was determined that for Volkswagen the VAS 6755A fully automatic resistance spot welder is delivered with the special Volkswagen 16A welding cap, Volkswagen-specific software and the new Shelf and Clip Kit and Dust Cover — all as standard equipment.

## ABOUT THE VAS 6755A — TECHNOLOGY FOR GREATER WORKING RANGE

A compact power unit with a low center of gravity gives mobility and stability, a 16,000-amp transformer and CANBUS communication ensure a perfect weld every time.

The **VAS 6755A** fully automatic welder comes with a new, revolutionized light-weight transformer gun. With its 355° swivel handle and ergo-grip, it enables perfect working positions for anyone, for any job. The gun is supported by a telescopic arm in a durable and lightweight extruded aluminum that can be easily adjusted both vertically and horizontally.

**STANDARD COMPONENTS****VAS 6755A-includes the following :**

- C-Yoke, 4 pcs
- Electrode Set inc. case
- Support arm with balancer block
- Shelf and Clip Kit
- Dust Cover
- VW 16A cap

**C-YOKE 40MM****C-YOKE 80MM****C-YOKE 350MM****C-YOKE 500MM****ELECTRODE KIT****SHELF AND CLIP KIT - ART. # 50300**

Shelf kit includes 3 shelves with rubber mats, 2 that are rotatable and one fixed.

Clip kit includes 4 clips, 2 for verticle and 2 for horizontal attachment.

**DUST COVER - ART. # 50343**
